Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach to one of ordinary skill in the art in combination a water heating device wherein a hydroelectric generation system comprising a turbine mounted to in a flow passageway, and driven by the water flowing through said passageway; a generator operatively coupled to the turbine to generate electricity; and an electrical heater mounted to a heated section of the passageway, the electrical heater being electrically powered by the generator; and a control unit coupled to the electrical heater and the generator for controlling the electricity supplied to the electrical heater. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Entleutner discloses a turbine configuration to use waste heat to heat a fluid. Lin discloses a heater for heating a fluid within a fluid passageway, but does not suggest the use of a turbine/generator to self power a heating element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
